## BOATING SAFETY

A boating accident can happen in the blink of an eye. We definitely don't want anyone to get hurt, so please observe all boating regulations, at all times. It is a club rule to wear your life jacket when the combustible engine is running, no matter if it's just idling. This is rules for disqualification, so don't forget to put it on. Don't take chances with your life. We want to keep you around. Make a special effort for the Nashville Bass Anglers to be the Safest and Most Courteous club around.
